

9/19/2010 APOLOGY FROM TRACK MANAGEMENT

The track owners, and management would like to apologize to all race teams and race fans whom made the trip to Canaan Dirt Speedway this past Friday night for the Ricky's Race For Kids, and Wicked Racing Products "War of the Worlds", and found that the event was postponed at the last moment due to untraceable track conditions.

"We worked our tails off from early morning right until we had to concede that it was going to be impossible to get the track in to racing shape, a track that would hold together and not tear up racecars, stated general manager, Dick Therrien. We have a never say die attitude here at Canaan, and we did everything within our grasp to make this event go. The lack of sun just killed us in the drying process and we just couldn't get the track to pack. There was still about a foot of mud in the turns that was like wet cement. We were hoping that our grader operator might be able to make a miracle happen, but upon his arrival and after a close examination of the clay, it was determined that we would have to pull the plug, and unfortunately it was after 4pm when the decision was made and cars and fans had started to arrive. We would like to apologize for the lateness of the call, but we are looking forward to running the event on Friday night, October 1st at 6:30pm.
